Background

Baufest is an **international** company consisted of **argentine resources** with **over 25 years'** experience. We develop and implement over **1,100** projects for **200** leader companies in **50 countries**, and we count on offices and operations in **Argentina, Chile, Mexico, USA** and **Spain**.

We are esteemed and recognized for our **excellence, integrity, quality** and reaching an average **customer satisfaction** rating of **93%** since 2006. We are the **5th** company with the **highest billing** in software development (IDC), one of the best companies to work for in Argentina since 2008 (The Great Place to Work, Argentina) and we have been honored with the **Sadosky Award 2011** for the Business Development category.

We count on a solid experience in the **utilities** business segment, which includes power and water distribution companies for whom we develop specific solutions, such as:

- Mobile Care Desk
- Contractors Work Monitoring and Management System
- SCADA Measurements Validation System

We are official certified partners of **Microsoft, Oracle, SAP, IBM, Red Hat, Atlassian, CA** and **NINTEX**. We usually participate in joint projects as specialists in its platforms and tools, by developing, implementing and integrating custom made software solutions for industries.

Main Clients

- AySA – Aguas y Saneamiento Argentinos S.A.
- Edenor – Empresa Distribuidora y Comercializadora Norte S.A.
- Enersa – Energía de Entre Ríos S.A.
